

WELCOME TO THE 2012 SOCCER SEASON!

The Novato Youth Center's (NYC's) Indoor Soccer Program is dedicated to non-competitive leagues for youth and adults. The goal of this program is to offer the community an opportunity for fun and exercise, emphasizing development of players' motor, spatial and decision-making skills over winning.

Individuals utilizing this facility do so at their own risk and responsibility. The league operators, board of directors and staff of the NYC assume no liability for any injuries or accidents, which may occur. (Please refer to your Release/Waiver statement on the Registration Form.) Behavior within the facility should be conducted in the spirit of good sportsmanship.

- Please respect the NYC facility and remain in designated areas only. You are welcome to use the mezzanine to watch the games or remain in the lobby area.
- CHILDREN MUST BE ACCOMPANIED BY AND REMAIN SUPERVISED BY AN ADULT AT ALL TIMES! Please respect this rule and do not expect the custodian to round up the children and return them to you. If children are left unsupervised during an adult game, the responsible adult will be taken off the court.
- No food and/or drink (other than water) are allowed inside the building. You may enjoy a snack out in front - please use the garbage cans provided. We thank you for your courtesy.
- Glass containers are not allowed inside the facility.
- Chewing gum is not permitted on the field.
- Coaches must stay in coach's area/"dugout" as designated by the referee. Only coaches and players are allowed in this area.
- The NYC reserves the right to refuse play or service to anyone for any reason they see fit. At the discretion of the referee, custodian, the NYC Indoor Soccer Program Coordinator, or the NYC Management, spectators, coaches and/or players will be ejected from the facility for any disruptive behavior.

The Novato Youth Center believes that all children and youth have talents and strengths and the right to lead healthy, happy lives.

Thank you for supporting the Novato Youth Center!
